

Stage 1: Subtype Evaluation

Evaluate by subtype agents separately

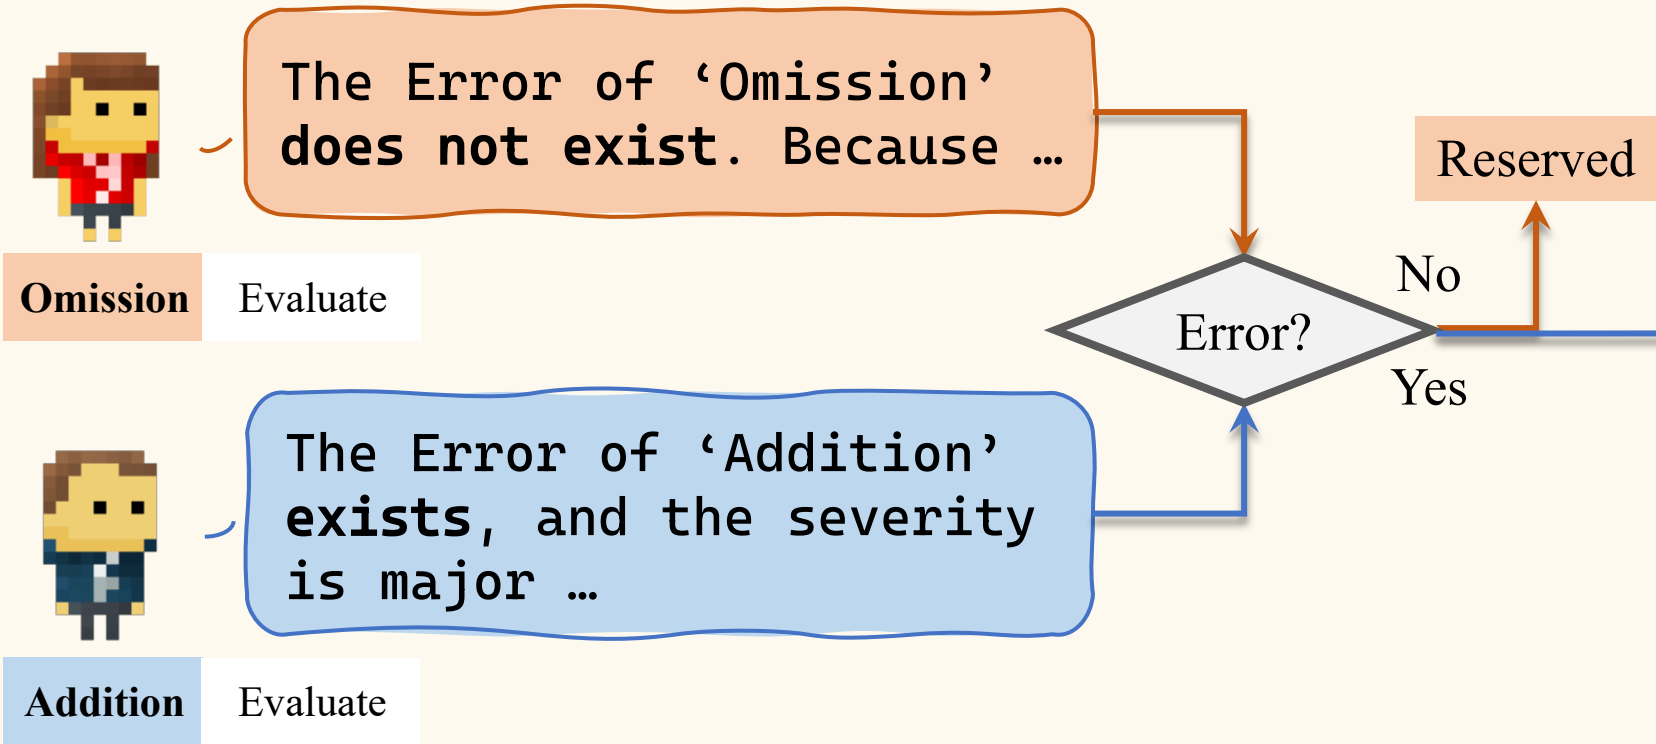

| Tier-1   | Tier-2             |
|----------|--------------------|
| Accuracy | Mistranslation     |
|          | Omission           |
|          | Addition           |
|          | Untranslated text  |
| Fluency  | Punctuation        |
|          | Spelling           |
|          | Grammar            |
|          | Register           |
|          | Inconsistency      |
| Style    | Character encoding |
|          | Awkward            |
| ...      | ...                |

Tier-2 Agent Assignment

A Zh→En Translation Sample for Evaluation

### SOURCE:  
如果你想拍爱情片，那你就老老实实讲喜欢骑摩托的小镇青年和服务员妹子之间的恩怨纠葛。

### TRANSLATION:  
If you want to make a romantic movie, then you should honestly tell the story of the feud between the young man who likes to ride a motorcycle and the waiter sister.

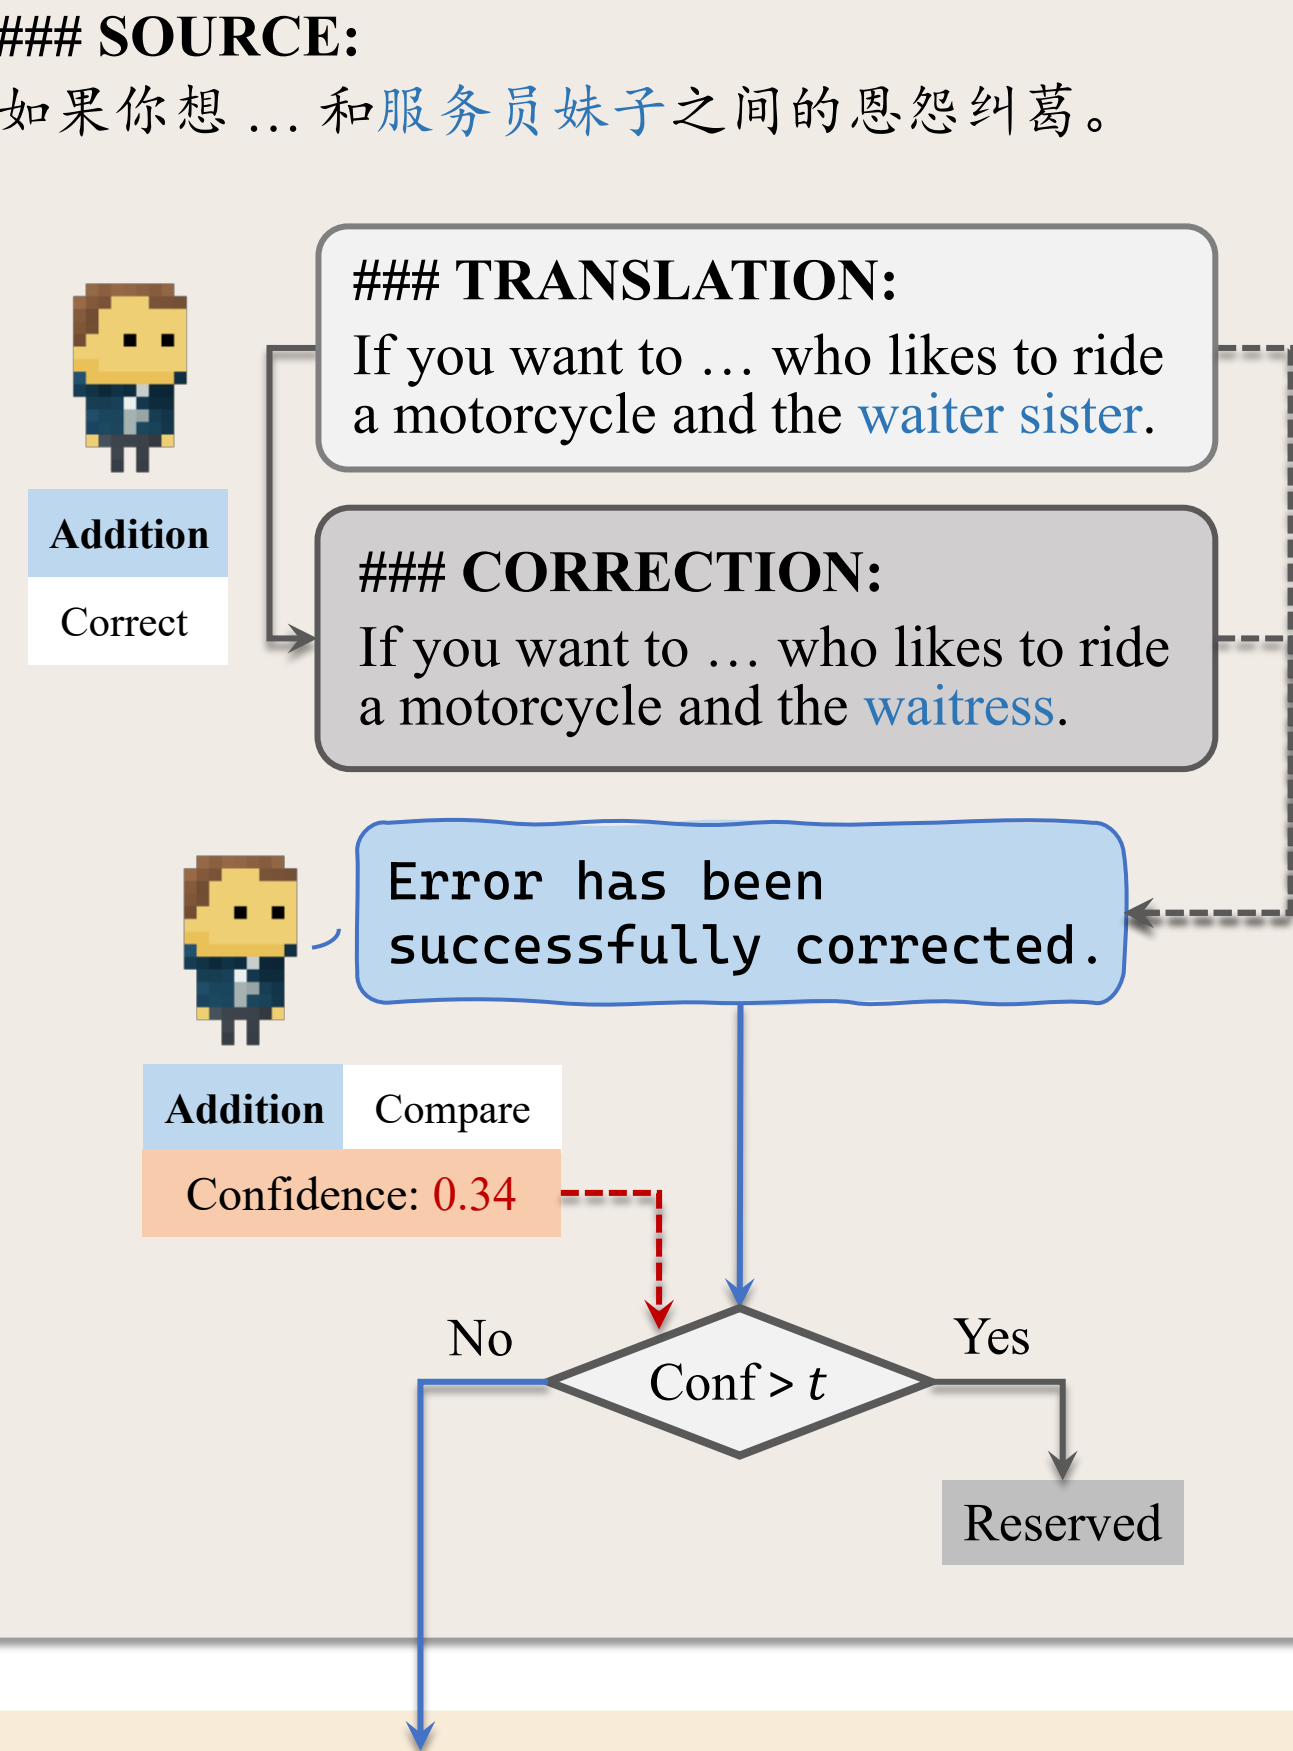

(More Subtype Evaluation Omitted)

MQM Hierarchy

Stage 2: Self-Reflection

Check for errors by self-reflection

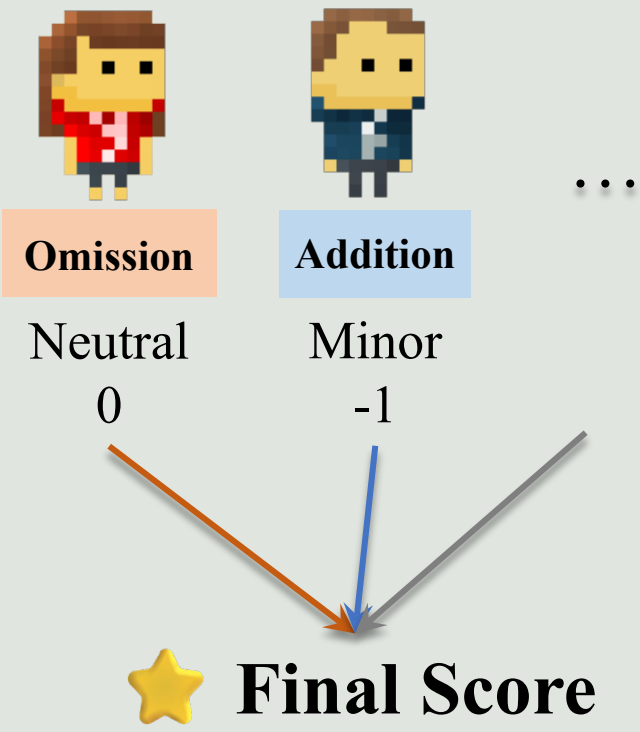

Final Stage: Weighted Scoring

Aggregate judgements from subtype agents

| Severity | Category            | Weight |
|----------|---------------------|--------|
| Major    | All                 | -5     |
| Minor    | Fluency/Punctuation | -0.1   |
| Minor    | All others          | -1     |
| Neutral  | All                 | 0      |

MQM Error Weighting

Stage 3: Collaborative Discussion

Seek assistance from the responsible tier-1 agent
